Secondary Aim	Students will practice their speaking fluency with frequency adverbs in sentences.

Materials and References
Board, color markers and worksheet 1 & 2

Student Profile			
Level	Lower Intermediate		
Age	Adults	Number of Students	6
Detail	Students are motivated to learn English as native Korean. They are interested in fun activities.		

Assumptions about students' knowledge as required for this lesson:

- Students know the vocabulary of adverbs of frequency (**sometimes, always, never, usually, often and seldom**) used in this lesson.
- Students know how to express their daily routines.
- Students know how to answer the question "How often do you ___?"

What language difficulties to expect when presenting, and how to deal with it:

- Meaning:** Students may think "always" means an everyday routine.
Make a clear visual context and C.C.Q.
- Form:** Students may confuse how to use the adverbs of frequency: "usually and frequently", "sometimes and often".
Show them the picture explaining adverbs of frequency with percentages. Students may also confuse where to place the adverbs in sentences. Practice using adverbs of frequency before the main verb or after the verb to be.
- Pronunciation:** Students may not know where to stress in a natural sentence. Drill several times chorally. Ask, "Which words sound stressed?" Board the stress markers in red.

Anticipated Classroom Management Difficulties and their Solutions:

The quantity of new language points to be learned about the adverbs of frequency may be too much for students to handle in a short 25 minute lesson. This could lead to anxiety, rushing, and a lot of teacher talk. For this lesson I will manage this by selectively presenting only a few new concepts about the adverbs of frequency. The remaining new language points can be presented in the next lesson.

When students speak in Korean in class, remind students of the English only rule and encourage them.

My Personal Aim

What I hope most to demonstrate in this lesson is the ability to present the target language using a situational presentation to be an involver type teacher. My goal is to also make sure that students understand the target grammar structure. Try to increase ST and reduce TT with SS centered.

Stage Name: Lead-in(3:00)														
Purpose of this stage: To relax both the teacher and students. To focus attention on the lesson. Create a situation for students to experience or think about, and then to elicit the target language.														
Materials: printed pictures, board, marker and eraser
